crypto infrastructure to
elevate your business**

Made in Germany. Designed for Europe.

Choose the track that fits your needs:
Crypto solutions for banks, brokers and asset managers

For your clients:

Are you looking to provide a seamless and secure crypto and digital asset offering to your customers?

With our B2B2C approach, we empower banks, brokers and asset managers to provide their customers with easy and reliable access to cryptocurrency trading and custody. Take advantage of our modular crypto and digital asset infrastructure solutions tailored to your individual needs, from white label solutions to fully customized brokerage, exchange and custody services with seamless integration.

For your business:

Are you looking for a way to diversify your portfolio to leverage the potential of crypto and digital assets?

With our B2B offering, we provide financial institutions with easy and reliable access to crypto investment and digital asset custody. Our modular and compliant solutions create a streamlined and regulated path into the world of crypto and digital assets through easy implementation, allowing you to diversify your portfolio – reliable and fully regulated.

Boerse Stuttgart Digital is your **trusted, fully regulated infrastructure partner** for entering the world of crypto and digital assets.

Explore the world of crypto and digital assets with Boerse Stuttgart Digital

Boerse Stuttgart Digital is Europe's leading regulated infrastructure partner for digital and crypto solutions. We serve as a safe and trusted partner for institutions and provide easy and reliable access to consumers.

As a true pioneer in digital finance, we provide reliable and fully regulated solutions along the entire value chain of crypto and digital assets.

Our four modular infrastructure solutions at a glance:

All-in-One

Unlock trading and custody with full integration

Are you looking for an end-to-end offering with full flexibility and seamless integration? If so, this option, which includes trading through our brokerage or exchange and custody, is tailor-made for you.

Plug & Play

Enable trading & custody via white label solution

Do you want to implement your own crypto offering within your existing corporate identity? This option includes trading through our brokerage solution and custody with easy integration according to your preferences.

Trading-Only

Trade crypto via brokerage or exchange solution

Do you already have your own custody solution and want to extend it with trading services? Choose our institutional brokerage for excellent liquidity.

Custody-Only

Store digital assets in MiCAR licensed custody

Are you looking for a secure way to store your crypto assets? Then this option is for you. Our MiCAR licensed custody solution offers state-of-the-art protection for your digital assets, whether directly or as a sub-custodian.

Take advantage of our modular infrastructure solutions tailored to your needs, from white label solutions to fully customized trading and custody services with seamless integration.

- **Europe's leading crypto infrastructure partner** – THE modular one-stop shop for crypto trading and custody
- **Fully regulated** – first MiCAR-license by BaFin/Germany
- **Leading financial institutions trust us** for safe and reliable access to crypto

“With our **integrated solutions spanning the entire value chain**, we enable leading financial firms throughout Europe to provide their customers with a **secure and regulated pathway into the world of crypto and digital assets.**”

Dr. Matthias Voelkel
CEO Boerse Stuttgart Group

Reliable crypto trading that's “made in Germany”

Institutional Brokerage (OTC): Our OTC brokerage solution provides your customers with a quick and easy way to buy and sell cryptocurrencies and digital assets while minimizing risk – a true “plug-and-play” experience. We prioritize transparency and fair pricing to ensure a fair trading environment.

Guarantee your customers 100 % reliability when it comes to crypto and digital assets

Exchange (MTF): Through a direct connection to our multilateral trading facility (MTF), we enable qualified participants to securely and reliably trade these assets. In doing so, we guarantee high liquidity and the fast execution of orders.

Your safe haven for digital assets is in Stuttgart

Custody: We ensure the utmost reliability in the custody of crypto and digital assets for our customers. By employing cutting-edge security technologies and adhering to the highest standards, we guarantee excellent protection for digital assets.

Boerse Stuttgart Digital is the first German crypto asset provider to receive a license under EU-wide MiCA Regulation.

Reliability is in our DNA

Entering the world of crypto and digital assets can feel like navigating uncharted waters – that’s where we come in. Boerse Stuttgart Digital, built through the Boerse Stuttgart Group, is the leading crypto and digital business among all exchange groups in Europe. We’ll serve as your fully regulated, trustworthy compass as you embark on your journey into the new world of digital finance.

Boerse Stuttgart Digital ensures full regulatory compliance and possesses all the necessary licenses for its business solutions

Our crypto custody solution is licensed by MiCAR and provides extensive insurance coverage for the assets held in in our trusted custody solution. Furthermore, our information security system is ISO 27001 certified, and the assets in our custody undergo regular audits conducted by independent third parties, with all results promptly reported to regulators. This commitment to thorough oversight enables us to deliver high-quality services that benefit you.

We are redefining the digital finance sector: Shaping the future with 160 years of expertise

Right from the start, you will be in contact with leading professionals in the finance world. Our motto: Top talent for top results.
